

Seal of Protection Training

What is the Seal of Protection (SoP)?

The Seal of Protection is a grassroots effort to establish minimum standards for all youth serving organizations in the Cayman Islands. There are currently no minimum standards for organizations that work with youth as customers, clients and beneficiaries. This is a multi-agency response to a gap that is making children and young people in Cayman vulnerable.

What is the SoP training?

The Seal of Protection training is aimed at empowering administrators programme managers, and youth services providers with the necessary skills and information to formulate policies, procedures and practices that will keep the youth in their care safe.

What will the training cover?

The training will cover creating Safe Environments, Code of Conduct, Screening & Hiring Practices, Reporting Procedures, Considerations for Children with Special Needs, and Implementation, all within the context of the Cayman Islands.

What will we get out of it?

This is a hands on training where participants will actively work on existing policies as well as developing policies that they do not currently have. Participants will work on actual documents that they will take back to their organizations for review and implementation.

For what organizations is this training intended?

This training is open to all youth serving organizations- attendees should be persons with the responsibility of creating policies and/or dealing with recruitment and development of personnel and volunteers.

What is the cost?
This training is free.

When is the training?
November 17 & 18, 8:30am-4:30pm

Limited spaces available.
